# Friends '77

*Friendship is a special gift. It is a part of yourself you give to a person you care about; to your friends at school; to that special someone . . . and to your teachers, too. Friendship is an important part of loving. One of the simplest ways to express love is by caring and being a friend.*

# Friends

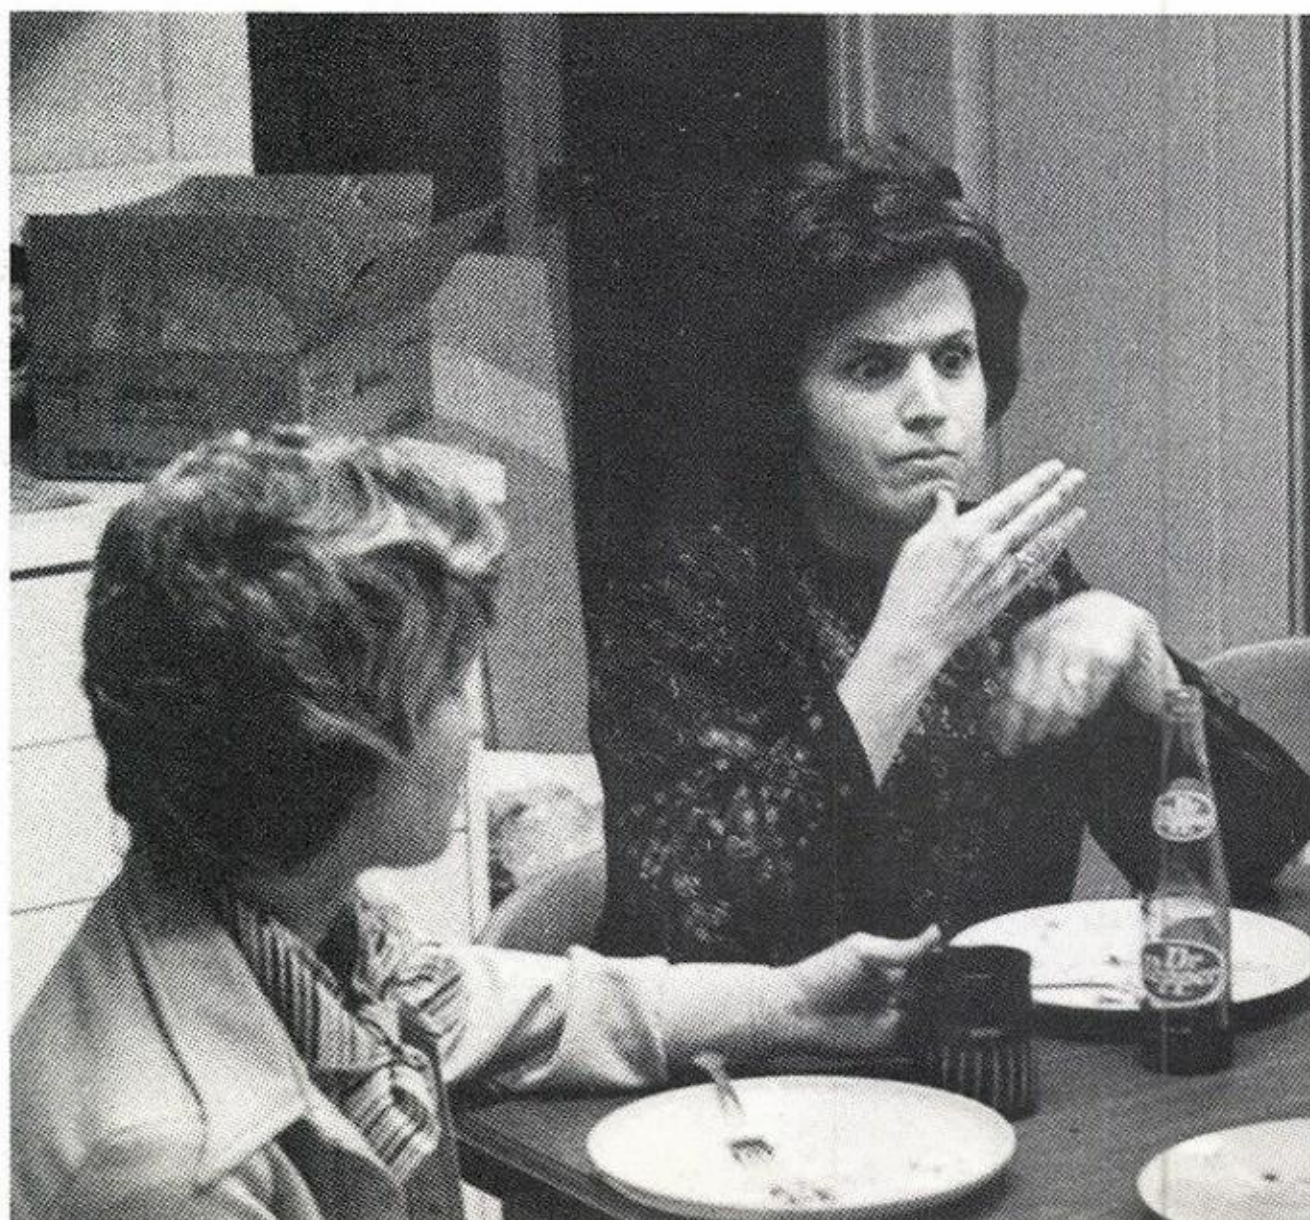

*I hope the day will be a  
brighter highway,  
For friends have found  
another road,  
Can you ever think of any  
better way,  
For the lost and weary  
traveler to go?*

*Makin' friends for the  
world to see,  
Let the people know  
you've got what you need,  
With a friend at hand  
you will see the light,  
When your friends are  
there everything's alright.*

*It seems to me  
a crime, that we  
should age,  
These fragile  
times, should  
never slip us by.  
A time we never  
can or shall  
erase,  
As friends to-  
gether watch Their  
childhoods fly.*

*Henry David Thoreau*

*"Friendship is fit for serene days, and graceful gifts, and country rambles; but also for rough roads and hard fare, shipwreck poverty, and persecution."*

*Ralph Waldo Emerson*

*"Friendship consists of forgetting what one gives and remembering what one receives."*

*"A true friend  
unbosoms freely,  
advises justly, asserts  
readily, adventures  
boldly, takes all  
patiently, defends  
courageously, and  
continues a friend  
unchangeably."

"Friendship between teachers and students is necessary if both groups are to enjoy a long school year. Where friendships are strong, it seems that the teacher and students benefit to a greater extent, not only curricularly, but socially and in non-school matters. Friendship is a natural phenomenon if the student has a genuine interest in himself and his future and the teacher is a conscientious professional."

# Student Senate

The Student Senate was a very active group this year.

The Senate sponsored the homecoming bonfire, raised money for UNICEF, erected a Christmas tree in the main hall and sponsored a Christmas door decorating contest.

The Senate officers attended the District Officers Workshop and the group attended the District Convention in Lindale.

The Senate raised funds by selling giant coloring books, holding bake sales, sponsoring a faculty baby picture contest and hosting a domino tournament for the community. From these funds a scholarship will be given to a senior Student Senate member.

The Senate sponsored several assemblies for the student body and hung a picture of the 1977 graduating seniors in the hall.

The Student Senate's most commendable school project was obtaining a pay telephone booth on the high school campus.

Friendship in band is special. In band we all help each other and have a lot of fun at the same time.

John Brown demonstrates his friendly relationship with his students in many ways, such as helping them on a one-to-one basis (left). He believes that it is pride that makes a Number One band. If you have pride, then you will have a superior band. As we all know, Malakoff's Tiger Band is Number One all the way.

## *Ours To Remember*

On March 26, 1977, the Junior class honored the Seniors at the prom. The Seniors chose blue and silver as their colors. Their symbol was a star, and their song was "Stairway to Heaven."

The banquet and prom were held at the Student Center at HCJC. The evening opened with a welcome from Junior class president Scott Estes and response from Senior class president Ronny Brown. Dinner then followed, catered by the Hickory Log. After dinner everyone was entertained by Charlie Flowers and the reading of the Class Will and Prophecy. Then the dance began and everyone moved to the music of "Eakin Frou IV."

## *Cheerleaders*

To be a cheerleader means enunciating clearly while screaming at the top of your lungs. It means snappy drills, tired muscles and long hours of practice. It means cold rainy nights and self discipline. That is what it was to our cheerleaders at M.H.S. Cheerleaders for this year are Joan Dukes, Rhonda Cox, Donna Hughes, Gay Venable, Helen Tarver and Andra White.

# Introducing the "Pride of '76"

The Tigers went into the season hoping to become the first Tiger Team in twenty-five years to capture a district title. But a two-game losing streak in the opening weeks of district play did away with any hopes for the number one spot.

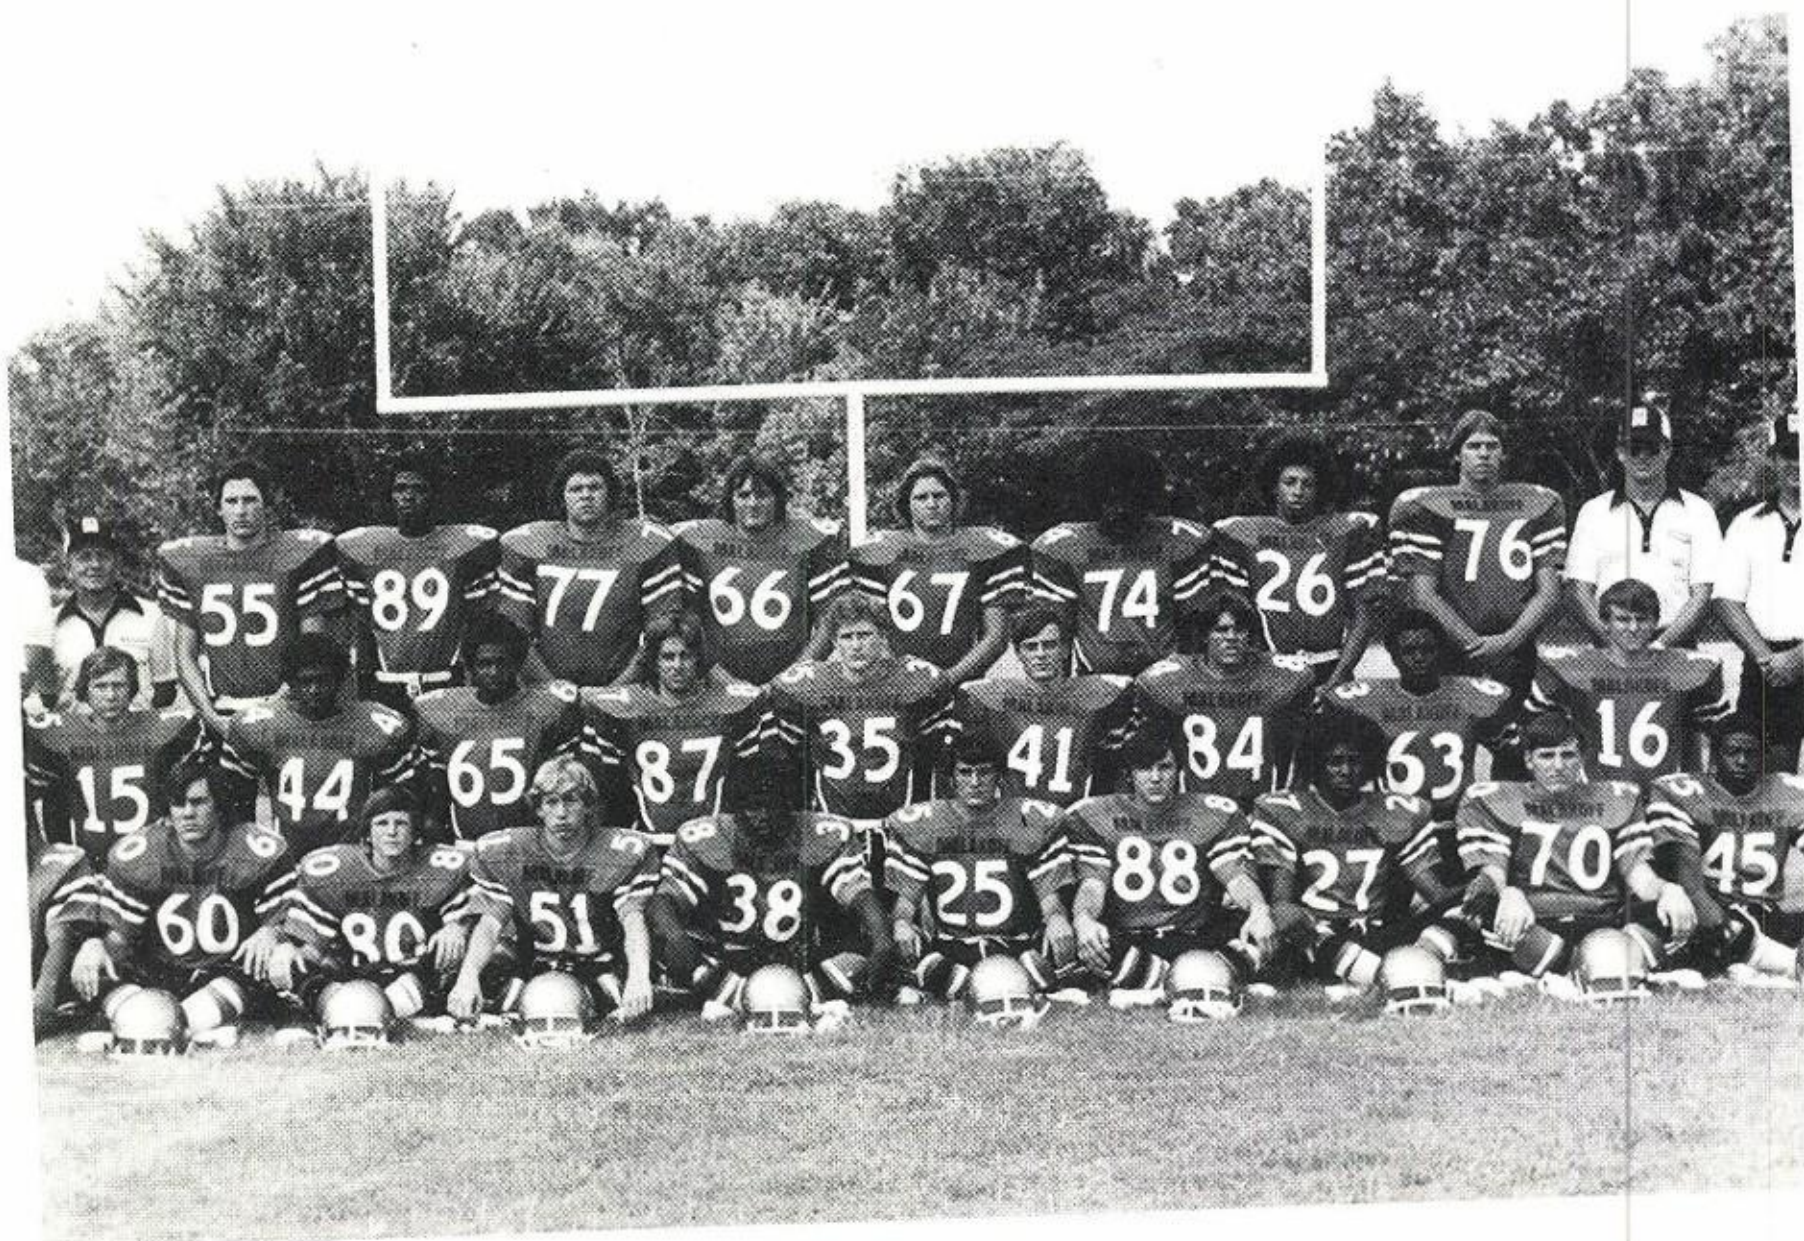

The Tigers reeled off wins in their first three games over Kerens 12-0, Kemp 23-8 and Fairfield 24-6. With three wins under their belt they headed full force into district play, but the streak came to an end as Van bopped the Tigers 19-14. The following week hopes for a district title went by the wayside as Wills Point bumped the Tigers 14-6.

The Tigers finally got back on the right track when arch-rival, Brownsboro, invaded Tiger Stadium and they bounced the Bears 7-6 to give them their initial loop win. The Tigers' glory was short-lived as Canton demolished them 27-7 the following week.

Mabank journeyed to Tiger Stadium for the Tigers' homecoming game and they left wishing they had never come as the Tigers blitzed them 7-0. District leader Kaufman was next in line for the Tigers. The Tigers finished the season on a winning note by blanking Grand Saline 28-0. The win gave the "Pride of '76" a 6-4 season record and a 3-4 district mark.

During the year the Tigers totaled 135 points compared to their opponents' 109.

"Friendship very definitely relates to teaching. Being a true friend to students will gain their trust. # SAVING TIPS

## on electric air conditioning

### Central Systems

1. Set thermostat on 78°, or higher.
2. Have equipment checked seasonally by qualified serviceman.
3. Check filter every 30 days. Clean or replace when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps heat out, cuts energy use.
8. Weatherstrip doors and windows. Caulk cracks.
9. Keep windows closed. Open outside doors as little as possible.

### Window Units

Follow above suggestions, plus these:

10. Buy units with *highest* "energy efficiency ratio" (EER). If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity.

11. Place unit where it'll get as little direct sun as possible.
12. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recooling, recirculation.
13. Never vent air conditioner into garage. Ventilation is usually too poor for top performance of your unit.

Conserve electricity and you help conserve one or more of the fuels needed to produce it. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

*If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.*
